Product Designer with **5+ years** designing user-centered digital products across native apps and web platforms. Specialist in **UX research, design systems,** and cross-functional collaboration in Agile environments.

01 / EXPERIENCE

Product Designer
Apr 2025 – Present

Lovehoney Group · Berlin

- Leading UX/UI for the **We-Vibe native app** — continuous research cycles driving engagement and retention.
- Running usability testing cadence to validate design decisions and reduce costly late-stage iteration.
- Aligning product, marketing, and brand on a unified experience across all digital touchpoints.

Product Designer
Nov 2021 – Apr 2024

Lightspeed Commerce · Berlin

- **+25% user engagement, −30% cart abandonment** — led end-to-end UX for Order Anywhere: Order Status, Self-Delivery, and UberEats Onboarding.
- **−20% development errors** — built reusable components as part of the Hospitality Design System.
- **90% usability score** — applied Lean UX practices with iterative user research across the full feature lifecycle.
- Ran cross-functional workshops and Show & Tells to accelerate alignment across product, design, and engineering.

E-Commerce Specialist
Feb 2019 – Sep 2020

Monoprice GmbH · Berlin

- **+20% team efficiency** — implemented process improvements across the e-commerce division.
- **−15% fulfilment costs** — streamlined order processing and inventory management through data analysis.
- Adapted product strategy to evolving consumer trends, improving B2C customer satisfaction.

Product Operations Specialist
May 2018 – Jan 2019

Highsnobiety · Berlin

- **−10% order cancellations** — applied 5 Whys root cause analysis to resolve recurring operational issues.
- **−10% product launch timelines** on Shopify through improved cross-functional communication.
- Managed end-to-end B2C customer journey across acquisition, retention, and loyalty.
